Great sound. Engineered.

We make life sound better.

Engineered for purpose.
Engineered for you.

At Jabra, we engineer with purpose shaped by inspiration, desire and ambition. It's what our company has been doing for 150 years. As part of the GN group, we are the only company creating consumer headphones, professional headsets and hearing aids under one roof. We've always been fascinated by sound, wanting to make life sound better by discovering new technologies. We don't just engineer products; we engineer better ways of doing things.

Heritage

As part of GN Group, Jabra has a 150-year history of leading the way, using our unrivaled understanding of high quality sound in all its forms to pioneer bold innovations that improve people's lives.

Jabra launches **the Jabra Engage Series.**

Engineered to be the world's most powerful professional wireless and digital corded headsets.*

Jabra launches **Jabra Evolve, a truly innovative series of business headsets** with unique noise cancellation.

Jabra creates the **world's first Bluetooth headset.**

GN and American ReSound (hearing instrument manufacturer) form a strategic alliance, resulting in the world's **first software-based digital hearing aids.** In 1999 GN acquires ReSound Corporation.

GN opens the world's **first telegraph connection** from Northern Europe via Siberia to Japan and Hong Kong.

2019

Jabra enters the video market with Jabra PanaCast.

Engineered to be the world's first intelligent 180° Panoramic-4K plug-and-play video solution.*

2018

2017

Jabra Evolve 75e is launched.

Engineered to be the world's first professional UC-certified wireless earbuds.*

2014

2003

Jabra creates the **world's first wireless headset** for conference calls.

2000

GN acquires Jabra, the largest and leading supplier of **advanced hands-free headsets** for mobile phones in the US. Jabra is now a part of the GN Group.

1996

1991

GN introduces the **first ultra-noise-cancelling microphone.**

1872

1869

June 1, the **Great Northern Telegraph Company** is founded by C.F. Tietgen.

Unified Communications and Collaboration (UC&C)

Our integrated audio and video solutions are designed to connect across and between UC&C platforms to reduce distractions, complexity and distance in the modern workspace, helping you to feel the full benefit of your UC&C investment.

At Jabra, we understand how work happens in the modern workplace, and we care about connecting people to the digital experiences they care about. That's why we engineer UC&C tools that adapt to the way people work, not the other way around.

Our solutions seamlessly integrate with all leading platforms, fit any workspace and deliver exceptional user experiences, helping you to drive user adoption and build a high-performing workspace.

What we can do for you

UC&C is undergoing something of a technological evolution at the moment. With this growth comes intense pressure on IT managers to make the correct decisions when it comes to selecting the right equipment for their workforce. With the way we

communicate changing all the time, it's important that they choose solutions which are built with tomorrow in mind. That's why we offer:

Solutions that fit in with the way you work

We complete your UC&C experience with integrated audio and video solutions, optimized for your business and connected to the digital platforms you already use.

Great experiences that help drive user adoption

Outfitting your business with UC&C-certified solutions unlocks the full potential of your digital platforms and provides your teams with great user experiences they will simply love.

Fast ROI and improved IT workflows

Our plug-and-play devices are easy to deploy, connecting straight out of the box with your platform of choice. This means your employees can get to work quickly with products IT admins **trust**.

Better together

Strategic alliances

To provide seamless communication and collaboration experiences, we design, develop and end-to-end test our audio and video solutions in close co-operation with the market's leading UC&C providers and engineering teams. We have earned the certification and endorsement of Microsoft, Zoom, Cisco, Amazon Web Services (AWS), Genesys, Fuze, Avaya, Unify, Alcatel, and many others.

Working closely together on product integrations allows us to bring to market connected solutions that enable the best communication and collaboration experiences.

New ways of working

Hacking productivity in the office: the right technology, optimized

“These days, even
instant gratification
takes too long.”

Carrie Fisher

We live in a fast-paced world and sometimes, from our insatiable need for speed, we miss the forest for the trees. At work we often confuse purpose and productivity. Today’s fast-as-light business climate might be vital for survival, but it often drains our finances, stifles innovation and exhausts employees.

How do we find new ways of working that accommodate today’s productivity targets but also enhance employee needs and the freedom to innovate? Finding the ‘optimal tools’ is an important part of the process. Work is no longer a place that you go to, but an activity that you engage in, regardless of place, and often regardless of time. Dispersed teams and community management are the new order of business.

These new challenges are reflected in the products Jabra takes to market. They are invented with the individual in mind, and recognize that greater productivity must be coupled with choices about the technology we use.

Our philosophy for New Ways of Working is built around the idea of organizing work with a focus on people reaching their full potential. Managers and employees alike make deliberate choices about workmodes – whether collaboration, concentration, conversation or communication – and for each, there are right tools for the job.

New Ways of Working is about surrounding ourselves with applicable technologies and processes, and a culture that helps us to achieve our full potential.

We’ve all heard the expression “Work smarter, not harder.” At Jabra, we’re dedicated to giving you the right tools to achieve this.

Meeting your communication needs

Our world of end-users, divided into three distinct use-case categories

Call centric

Our call centric solutions are for agents, civil servants, traders and financial advisors who listen and talk for a living over the phone with customers to raise customer satisfaction by solving their problems. Conversation is key to their work, and they increasingly need to perform in calls in noisy environments that also allows for concentration prior to calls.

- JABRA ENGAGE SERIES
- JABRA PRO SERIES
- JABRA BIZ SERIES

Task-based

Our Task-based solutions are for back-office functions like marketing, R&D, supply chain, etc. whose work requires a high degree of concentration throughout the day. These solutions are also geared towards those who often need to share their knowledge with colleagues and external stakeholders through online-based collaboration.

- JABRA EVOLVE SERIES
- JABRA SPEAK SERIES
- JABRA PANACAST

Calls-on-the-move

Our Calls-on-the-move solutions are for those who work with a high degree of mobility outside the office. They need to make calls while driving from one sales meeting to the next, or when moving from one location to another. For such professionals, hands-free calls are not an optional benefit – they're a requirement.

- JABRA MOTION SERIES
- JABRA STEALTH UC

Call centric

Solutions for agents, civil servants, traders and financial advisors who listen and talk for a living over the phone with customers to raise customer satisfaction by solving their problems.

It's time to fully engage with your customers

Do you need to ensure great-sounding customer calls – but work from a busy, often noisy office?
Do you want to enhance customer experience? Looking to boost your team's productivity?

Meet the Jabra Engage Series – engineered to enhance customer satisfaction.

JABRA ENGAGE SERIES

More power for your conversations

The Engage Series is designed to suit the needs of call centric workers who talk and listen to customers on the phone. Every Engage Series product is optimized to drive customer satisfaction by delivering great-sounding calls, even in noisy work environments.

- Up to 3x wireless density.¹
- Advanced noise-cancelling microphone.
- Enhanced speakers with intelligent volume control.

Engineering, evolved

Where and how we work is changing. This can be challenging for knowledge workers, with many finding it hard to stay productive, both in a noisy office environment and when they're on the move.

At Jabra, we evolve sound technology so that you can concentrate and work better, be more efficient and ultimately be more productive in a work environment that changes throughout the day. Our Evolve Series is designed to provide office workers with audio solutions that offer the professional features they require, in a style that they want.

JABRA EVOLVE SERIES

Engineered to be the best professional headsets for productivity in the open office, offsite, or on the go

Best-in-class noise cancellation enhances productivity, and world-class speakers deliver amazing sound for calls and music. Comfortable fit and call-management features make the headsets incredibly easy to use. Every Evolve is certified for Skype for Business and Cisco and is compatible with all leading UC platforms.

- Choose a headset with productivity-boosting features such as ANC, busylight and microphone positioning guidance.
- Compatible with leading desk phones and softphones.

LINK 950

JABRA LINK 860

Turns the traditional desk phone headset (QD) into a full digital headset with improved call management.

- Works with QD headsets on both desk phones and a UC softphone.
- Supervisor port for easy assistance and training purposes.
- Easy connectivity and power through USB.
- Easily switch between desk phone and softphone calls.

LINK 860

JABRA LINK 180

Switch between desk and softphone on a single headset.

- Enables use of Jabra QD headsets with PC-based softphones.
- Ideal for transitioning from desk phone telephony to softphone.
- Manual switch for simple, hassle-free operation.

LINK 180

JABRA USB ENABLERS

Simply seamless

Preserve your QD headset investment as you move to UC. USB enablers allow you to connect a traditional desk phone headset to a UC softphone with all the benefits of acoustic shock protection and Noise at Work compliance. USB wireless adapters enable you to connect your Bluetooth headset to your softphone for wireless connectivity.

JABRA LINK 265

Join the conversation or stay muted when training agents.

- USB Y-training cable connects to any two Jabra QD headsets.
- Supervisor function allows supervisor to stay muted or join the conversation.
- Inline call controls; answer/end calls, adjust volume and mute the microphone.

JABRA LINK 260

Connect your corded QD headset to a softphone and get call control.

- Provides Digital Signal Processing (DSP) and noise filtering for a superior audio experience.
- Compatible with any Jabra QD headset and all leading softphone brands.
- Answer/end calls, put calls on hold, adjust volume and mute at the touch of a button.

JABRA LINK 230

Connect your corded QD headset to a softphone

- Enables any Jabra QD headset to be used with a PC-based softphone.
- Provides Digital Signal Processing (DSP) and noise filtering for a superior audio experience.
- Offers cost-effective transition to a UC solution.

JABRA LINK 360/370¹

Plug-and-play Bluetooth mini USB adapter for PC.

- Offers HD voice, HiFi Audio and A2DP for crystal-clear sound.
- Superior wireless range up to 100ft/30m for optimal mobility.
- Easy to manage and update with Jabra Direct.

JABRA REMOTE CALL CONTROL SOLUTIONS

Leave the desk behind

Using a wireless headset together with a desk-phone becomes much more productive when you can hear and take calls away from the desk. Jabra Remote Call Control solutions enable volume to be adjusted during the call directly on the headset away from the desk phone. Jabra offers a wide range of solutions to support a variety of different desk phones.

JABRA GN 1000

True wireless headset freedom for use with most desk phones.

- A mechanical handset lifter enabling remote call control with virtually any desk phone lacking EHS functionality.
- Wireless call control from your wireless headset up to 150m/495ft from your desk.
- Answer/end calls, adjust the volume and mute your call from the headset.

JABRA GN 1000
Remote handset lifter

JABRA LINK 14201-33

Get remote call control on your wireless headset.

- For desk phones providing EHS functionality. No mechanical handset lifter needed.
- Call control from your wireless headset up to 150m/490ft from your desk.
- Answer or end calls, adjust the volume and mute your call from the headset.

LINK 14201-33

JABRA LINK 14201-35

Electronic Hook Switch Solution for Avaya phones.

- Enables users to answer and end calls away from their desk.
- Maximizes users' wireless mobility.
- Plug-and-play solution.

LINK 14201-35

JABRA LINK 14201-17

Electronic Hook Switch adapter for Polycom SoundPoint IP phones.

- Enables users to answer and end calls away from their desk.
- Maximizes users' wireless mobility.
- Plug-and-play solution.

LINK 14201-17

JABRA HANDSETS, CORDS AND ACCESSORIES

Familiar functionality

Jabra offers a wide range of cords for your QD headset to complete your solution. We also provide a range of accessories and replacement parts to enhance your workspace.

DIAL 550

Complete handset functionality with your softphone.

- A corded handset that provides USB connectivity optimized for all leading softphone systems.
- Provides Digital Signal Processing (DSP) and high quality audio for crystal clear conversations
- Answer and end calls on the Jabra audio device with seamless integration between your phone and headset.

JABRA DIAL 550

JABRA GN 1200 SERIES

Connect your desk phone to any Jabra QD headset.

- Works with most desk phones.
- Microphone amplification to boost transmit levels.
- Simple slide adjustment for easy setup.

JABRA GN 1200 SERIES

JABRA 14207-16

Headset hanger that lets you hang the headset on your PC-monitor.

- Works for most headband headsets.
- Easy to use.

JABRA 14207-16
Headset hanger

REPLACEMENT EAR CUSHIONS¹

- Foam ear cushions that lead heat away from the ears for all-day comfort.
- One pack contains 10 ear cushions.

REPLACEMENT
EAR CUSHION PACK

JABRA SOFTWARE

Complete control. Complete solutions.

Install and connect your Jabra sound devices.

Jabra Direct for Windows

A feature-rich integrated software solution for your headsets. Manage firmware and software updates to:

- Facilitate headset adoption
- Reduce the time spent on headset deployment
- Optimize the conversation experience for customers

All-in-one, user-friendly interface.

Download it free today at jabra.com/direct

Jabra Direct for Mac

Get your Mac softphone and Jabra sound device speaking the same language.

- Control your Mac softphone calls from your Jabra device.
- Improve your Jabra device with firmware updates
- Handle Bluetooth connections between your Mac and Jabra headset.

Download it free today at jabra.com/direct

Jabra Sound+

Engineered to personalize your sound

The Jabra Sound+ app provides you with sound that's perfectly suited to your surroundings, wherever you are.

- Personalized sound to suit your surroundings.
- Customize the way Sound+ delivers your sound.
- Choose your preferred voice assistant. Select between Amazon Alexa, Siri®, Google Assistant™ and more.

To learn more, go to jabra.com

Jabra Xpress

Jabra Xpress is a software solution designed for IT professionals to 100% remotely manage Jabra USB devices with a set of smart tools. Jabra Xpress ensures:

- Easy mass deployment.
- Smart asset management.
- Agile maintenance.

To accelerate UC adoption and maximize Jabra headset ROI, download Jabra Xpress today at jabra.com/xpress

JABRA TECHNOLOGY

Quality as standard

Standard features that take your communication to the next level.

Comfort

Most Jabra headsets have a choice of up to three different wearing styles for the most comfortable and customizable fit.

DECT vs. Bluetooth® Technology

DECT – best possible range and density performance. Bluetooth – When mobility with one solution, in and outside of the office, is a key need.

Digital Signal Processing (DSP)

DSP technology optimizes sound performance by filtering out distracting background noise, reducing call-handling times and potential misunderstandings.

HD Voice – Wideband Audio

Enjoy life-like, vibrant conversations that let you focus on the content of the call instead of struggling to hear the person on the other end of the line.

High Durability

Every headset is subject to extensive testing; everything from cable-flexing over boom-arm rotations to acoustic tests. Durability can cut your and saves your time.

HEADSET	BLUETOOTH	DECT
Connection (in the office)	Deskphone Softphone Mobile phone	Deskphone Softphone Mobile phone
Connection (outside the office)	Softphone Mobile phone	Not possible
Range (up to)	100m/300ft	150m/450ft
Talk time (up to)	12h	10h
Standby time (up to)	360h	46h
Channels available	79	120
Density recommendations (up to)	25 units (all Bluetooth®)	80 units (all DECT)
Sound quality	Wideband, Narrowband, HiFi (A2DP)	Wideband, Narrowband

Mono or Stereo speaker

For many of our headsets, you can choose between mono (one) and stereo (two) speakers, depending on your work environment or your personal preference.

Noise Blackout™

Jabra Noise Blackout technology eliminates disturbing background noise such as wind, surrounding conversations or traffic, to enhance your voice.

Noise Cancellation

Choose between different noise-canceling microphones that filter out unwanted background noise. Great for use in noisier, open-office environments.

Optimized for Skype for Business

The vast majority of Jabra products come in standard variants or variants that have been optimized for Microsoft.

PeakStop™

PeakStop technology, included with all Jabra headsets, immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within a safe range to protect your hearing.

Remote Call Control (RCC)

RCC gives you call control with your wireless headset from your desk phone, using either an Electronic Hook Switch (EHS) cable or a mechanical handset lifter (Jabra GN1000).

SafeTone™

SafeTone technology, included with selected Jabra headsets, protects your hearing by cutting off sudden loud noises and maintaining a safe average sound level throughout the day – meeting EU noise-at-work compliance and NA recommendations – jabra.com/hearingprotection

Secure Wireless Calls

All wireless office headsets digitally encrypt the signal between the headset and the base. That's guaranteed confidentiality and peace of mind when you need privacy.

UC plug-and-play

Intuitive call control and seamless connection to all leading UC applications and softphones. Easy to set up and easy to use.

Wind Noise Protection

Keep the thread of your conversation in open-air environments without any interference. Walk, bike, run and work outside with no need to raise your voice or shout to be heard.

DECISION TIME

Compare Jabra products

Use this chart to discover the differences between products and find the perfect solution for your needs.
