Introduces

# FRT-PRO+

## Non Contact Temperature Measurement + Face Recognition + Attendance Management Integrated System

Forehead Temperature Detection

Face Recognition

Masked Face Recognition

Attendance Management

### Features

Most Wide Angle Pose Acceptance

Speedy Recognition

Touchless for Better Hygiene

High Proactive AI Facial Recognition

Cloud Data Storage

Temperature Measurement Accuracy  $\pm 0.2^{\circ}\text{F}$

WIFI Connectivity

RFID Card Reader

Access Control

FACE LIBRARY CAPACITY

**30000**

USER RECORDS DATABASE

**1000000**

FACE RECOGNITION RESPONSE TIME

**< 500ms**

TEMP. MEASUREMENT DISTANCE

**0.3 to 0.7 mtr.**

- **THERMAL SCREENING:** Data Recording of 100+ Persons in just 5 minutes.
- **HIGH PROACTIVE AI FACIAL RECOGNITION** from slight face appearance due to strong inbuilt sensor. Has a big room of 48sq. cm sensing area for better and quick screening, not a small window.
- **ENTRY CONTROL & IDENTIFICATION:** Will Record - Entry - Date & Time / Exit Date & Time of Registered or Non-Registered Persons along-with Temperature and Face Recognition or even Visitor's Pass.
- **FACE RECOGNITION** from 0.5-2mtr. distance.
- Ready Data for making salary of employees.
- Return of your investment in 1 to 3 months (depending on number of employees).

**FREE INSTALLATION!**
