

Non-Contact Infrared Thermometer

TG8818C

Microtek Non-Contact Infrared Thermometer is a advanced technology product, which can measure the temperature of a human body by receiving the infrared energy emitted from the forehead of the human body.

According to the difference of human skin, the measured temperature will be different, so that you can conveniently maintain the health status of your family members at anytime and anywhere.

Non-Contact Infrared Thermometer

TG8818C

1^{sec} Ultra Fast
Measurement in < 1sec

Accurate
Accuracy up to $\pm 0.36^{\circ}\text{F}$

Fever alarm
> 100.2°F automatic alarm
& Red backlight

$^{\circ}\text{F}/^{\circ}\text{C}$ Switchable
Easily switch between Fahrenheit
and Celcius

OTHER FEATURES

✓ EASY TO USE

One-Key Measurement, Auto Shutdown, Ergonomic & Energy Saving Design.

✓ NON CONTACT

Measure the temperature from forehead of the human body without touching the skin.

✓ MEASURING DISTANCE

Works accurately at any distance between 1 to 15cm.

✓ SCREEN DISPLAY

Large Screen with back light which helps to see readings in all lighting conditions.

✓ 3-IN-1 MEASUREMENT

Body, Object and Room Temperature.

✓ TEMPERATURE ALARM

In case of high temperature gives audio and visual indications.

✓ MEMORY

Can store up to 32 readings.

Measure Human Body, any Object or Room Temperature

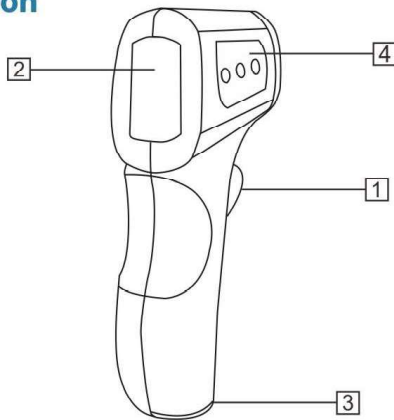

Non-Contact Infrared Thermometer

TG8818C

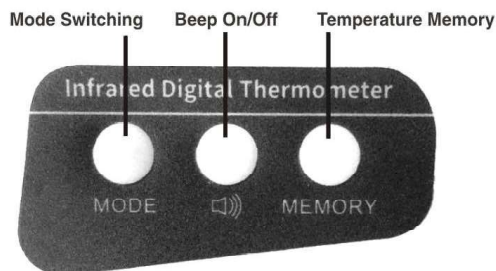

Product Description

The thermometer has mainly following 4 components:

- 1) Scan Button
- 2) LCD Display
- 3) Battery Cover
- 4) Function Buttons

Function Buttons

SPECIFICATIONS

- ◆ **Measurement Method**
Non-Contact.
- ◆ **Measuring Distance**
1 to 15 cm.
- ◆ **Measurement Range**
Temperature 32.0°C~42.9°C (89.6°F~109.2°F).
- ◆ **Resolution**
0.2°C / 0.36°F.
- ◆ **Working Conditions**
10.0°C~40.0°C (50°F~104°F) RH≤85%
- ◆ **Storage Conditions**
-20°C~55°C (-4°F~131°F) RH≤95%.
- ◆ **Power**
2 AA (No.5) Alkaline Batteries DC-3V.
- ◆ **Power Dissipation**
Shutdown State: ≤10uW
Boot State: 30mW
- ◆ **Low Voltage Indication**
<2.5V will be displayed as Low Voltage.
- ◆ **Display**
Tricolor Backlit Screen.
- ◆ **Temperature of the Unit**
Degrees Celsius or Fahrenheit.
- ◆ **Automatic Shutdown Time**
Within 20 seconds.
- ◆ **Dimensions**
171 x 110 x 50 mm
- ◆ **Net Weight**
105 Gms.
